Happening!

Festival of Performative Arts curated by **Letizia Renzini**,
produced by **NAM – Not A Museum**

Ten days of concerts, performances, and installations featuring artists from all over the world: during the Happening! festival, the creative community at Manifattura Tabacchi offers its spaces, encourages public interaction and participation. Happening! is envisaged as an evolving journey which will come alive through events that probe the limits between temporal and spatial arts, between the Performing Arts and Performance Art.
